## **Project Success 2019**

Created by Simpson, Robert L., last modified by Nunez Pepen, Rocio Alexandra on Jun 15, 2020

## **Our Goals?**

- To identify, recruit and nurture talented students from Boston and Cambridge, particularly students from groups underrepresented in medicine and/or disadvantaged, who are interested in pursuing biomedical careers.
- To link students with scientists and physicians. Students will assess their interest in and aptitude for biomedical careers; engage in hands-on research to enhance their technical skills and scientific knowledge; and be encouraged to become critical thinkers.
- To provide continuing support and resources for students in developing academic and professional career paths.
